TRACKED ALL TERRAIN VEHICLES

insulated storage containers
(better than steel) Secure, Strong,
No Condensation

£1,250.00

fully insulated storage containers, these containers are ex fridge trailer body's which we build up to be wind and water tight and sprayed green, they are excellent storage units which do not sweat or condensate like steel containers. they range in length from 35 foot up to 45 foot with a fully insulated roller shutter door which has a big hook that fastens into the floor of the container and a padlock point to secure the container. due to there man made materials these containers will last a life time, the walls and roof are over 3 inch thick. the floor is around 6-8 inch's thick, the floor can with stand over 15 ton so no worries with weights of items storing. we can convert these units
